CAREER OBJECTIVE

Enthusiastic MCA student with strong foundations in Full Stack Development, MERN Stack, and AI-powered applications. Passionate about building scalable web applications and solving real-world problems using modern technologies. Eager to contribute technical, analytical, and problem-solving skills in a dynamic software development environment while gaining practical industry experience through innovative projects.

EDUCATION

Master of Computer Applications (MCA) Presidency College, Bengaluru CGPA: 7.88/10	2025 – Present
Bachelor of Computer Applications (BCA) SJPN BCA College, Nidasoshi CGPA: 8.22/10	Sep 2022 – Jul 2025
Class XII (PUC – Science) SJPN PU College, Nidasoshi Percentage: 51.3%	Jul 2020 – May 2022
Class X (SSLC) Bharatesh PU College, Bellad-Bagewadi Percentage: 75.68%	Jul 2018 – Mar 2020

INTERNSHIP / WORK EXPERIENCE

Ligand Software Solutions – Software Developer Intern (Full Stack & AI) Sankeshwar, Belagavi	Feb 2025 – Present
- Worked on MERN Stack and AI projects (Flask), independently handling core development tasks. - Contributed to live client projects as part of the Ligand Coders team. - Developed responsive UIs and integrated backend services for production-ready applications. - Optimized application performance and supported delivery of production-ready solutions.	

ACADEMIC PROJECTS

AI-Biller: AI Based Billing System	SJPN BCA College Nidasoshi 2025
- Developed an AI-powered smart billing system to eliminate manual barcode scanning and reduce checkout waiting time in retail stores. - Implemented YOLO-based real-time product detection, automatically identifying items as they are added to the shopping cart. - Built a dynamic billing module that updates the customer's bill instantly based on detected products and their prices. - Generated and delivered electronic bills automatically after purchase, improving customer convenience and reducing paper-based billing. - Technologies Used: Python, Flask, YOLO, React.js, Node.js, Express.js, MongoDB.	
Agri AI: Smart Crop Yield & Pest Detection System	Presidency College Bangaluru 2026
- Developed an AI-based agriculture assistance system for crop yield prediction and pest detection. - Integrated computer vision models to identify crop diseases and pest infections in real time. - Integrated LLM-based multilingual support to provide farmer-friendly crop guidance and recommendations.. - Suggested suitable pesticides, prevention methods, and crop improvement recommendations automatically. - Technologies Used: Python, Flask, OpenCV, Machine Learning, Google Colab , LLM APIs	

Ligand Work-Space LMS (Ongoing) <https://liganddevelopers.vercel.app>

Ligand Software Solutions | 2025

- Developed a full-stack Learning Management System (LMS) to manage student fees, attendance and study materials
- Built an online examination module with automated evaluation and performance tracking features.
- Integrated an AI-powered mock interview system to help students improve communication and interview skills.
- Implemented role-based access control and secure authentication for students, faculty, and administrators.
- Currently serving **750+ active users** with scalable deployment and real-time data management.
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, Vercel

SDVS BCA College Official Website <https://www.sdvssbcasnk.com>

Ligand Software Solutions | 2025

- Built the official website for SDVS BCA College, providing a professional client-facing experience.
- Technologies Used: React JS, Node JS, Express JS, sdvssbcasnk.com
- Designed and implemented a responsive user interface, ensuring seamless accessibility across desktop, tablet, and mobile devices.
- Developed dynamic admission, course, and information management features, improving user engagement and simplifying content updates for the college administration.

SKILLS

Technical Skills

- Programming Languages: Java, C , JavaScript , Python
- Web Technologies & Frameworks: React.js, Node.js, Express.js, Python Flask, REST API, MongoDB
- AI / ML (Project-Based) : YOLO, OpenCV, scikit-learn, Machine Learning Model Integration, Computer Vision
- Tools: Git, GitHub, Postman, JWT Authentication, VS Code, Vercel, Render

Soft Skills

- Clear communication in collaborative team environments
- Quick learner with practical exposure to AI, Machine Learning, and modern web technologies beyond academics.
- Adaptable to working on real-time projects, production environments, and deadline-driven development tasks.

CERTIFICATIONS

- Python Programming Certification – Coursera | 2025
- JavaScript for Beginners – Udemy | 2024

ACHIEVEMENTS

- Built and deployed multiple full-stack and AI-powered applications using the MERN Stack and Machine Learning technologies, including the official college website ([sdvssbcasnk.com](https://www.sdvssbcasnk.com)) ,LMS platform (liganddevelopers.vercel.app) and NGO website (gururajfoundation.com) at **Ligand Software Solution**.
- Achieved first rank in the Python subject at the college level, demonstrating strong programming and problem-solving abilities – SJPN BCA College Nidasoshi | 2024

EXTRA-CURRICULAR ACTIVITIES

- Member and Tech Lead of Coding Club – SJPN BCA College, Nidasoshi | 2024 – 2025
- Participant, Rift Hackathon 2026 (Organized by Physics Wallah Institute of Innovation) – Selected among the top 200 teams in Bengaluru from 18,000+ registrations nationwide. | 2026
- Participated in hackathons and technical events – Various Institutions
